TASK 2

Code

```
#include<stdio.h>

int main()

{
    int CNIC;

    int driving_test;

    printf("Do you have a CNIC?(enter 1 for yes and 0 for No :)");

    scanf("%d",&CNIC);

    printf("Have you passed the driving test?(enter 1 for yes and 0 for No ) : ");

    scanf("%d",&driving_test);

    if(CNIC=1)

    {

        if(driving_test=1)

        {

            printf("License Can Be Issued.");

        }

    }

    else

    {

        printf("License Cannot Be Issued");

    }

}
```

Output

The screenshot shows the Dev-C++ IDE interface. The main window displays the output of a C++ program. The program prompts the user for two inputs: 'Do you have a CNIC?(enter 1 for yes and 0 for No) :1' and 'Have you passed the driving test?(enter 1 for yes and 0 for No) : 1'. After receiving these inputs, the program outputs 'License Can Be Issued.' followed by a series of dashes. It then reports 'Process exited after 36.17 seconds with return value 0' and 'Press any key to continue . . .'. The IDE's status bar at the bottom indicates 'Line: 8 Col: 80 Sel: 0 Lines: 21 Length: 461 Insert Done parsing in 0 seconds'. The Windows taskbar at the bottom shows the date and time as 5:46 PM on 9/18/2026.
